Charging Your Charging Case

To charge your charging case, plug the included micro-USB charging cable into the slot on the bottom of the charging case. Plug the other end into a USB adapter. The case will automatically begin charging, a red LED Battery Indicator WILL Flash while charging. When it is fully charged, the LED will become solid red.

Charging your earbuds

To charge your Earphones, simply slide each Earphones into its corresponding dock until the Earphone is fully seated. The Earphones will begin charging, indicated by a solid red LED glow on the Earphones and solid blue LED glow on the charging case. When the Earphones are fully charged, the LED on the Earphones will turn blue.

Connecting with Bluetooth:

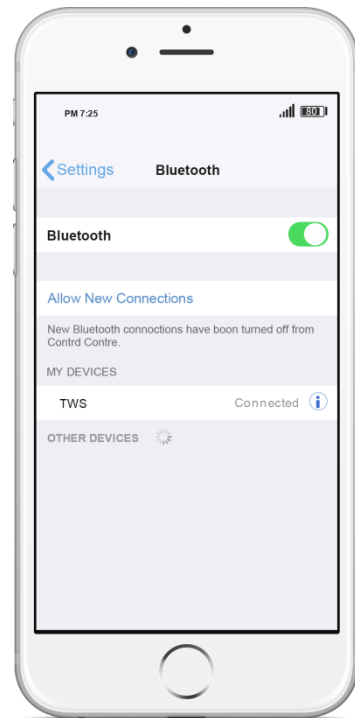

Step 1: Open the upper cover of the charging case and take out the Earphones, the lights will flash red and blue, the Earphones are then turned on.

Step 2: Once Earphones have been taken out of the case, they should both be flashing blue, this means they are paired to each other.

Step 3: Open your Bluetooth settings on your iPhone or Android device. Press your Bluetooth menu on your device and iMPULSE should appear for connection. As soon as this appears click on it and the Earphones will pair automatically to your device.

Step 4: Once paired/connected the blue light on your Earphones will turn off

Step 5: Listen to music and enjoy.

NOTE: If Earphones fail to connect with each other, please turn off both Earphones place them back into the charging box. Delete iMPULSE in your Bluetooth settings on your device. Then restart the steps for connecting Bluetooth again.

Automatic pairing:

You only have to pair your Earphones to your device for the first time for them to automatically pair the next time you use them.

This means you will not need to complete the pairing process every time you use your Earphones.

Battery indicator:

Shows the battery level remaining when the earbuds are paired with your smart phone. You will be able to see this on the top right-hand corner of your device.

Note: The voice prompt “Low Battery ” will notify you when the Earphones need to be recharged.

Mutifunction Touch Control:

1. Play: 2 taps on Right Earphone
2. Pause music: 2 taps on Left Earphone.
3. Next song: Tap 3 times on Right Earphone to skip a track
4. Back a Track: Tap 3 times on Left Earphone to go back a track
5. Siri function: Long hold for 2 seconds on Left or right Earphone.
6. Receiving Calls: 2 taps on Right Earphone to answer call
7. Hang up call: 2 taps on Left Earphone for ending call.
8. Reject call: Long press for 2 seconds on Left or Right Earphone.
